Dear Mr. Allshouse,

This letter is in response to your recent telephone call to me concerning the references in E.C. Jordan's "Detailed Analysis of Remedial Technologies for the New Bedford Harbor Feasibility Study" ("DART") which you requested from EPA by a letter dated March 9, 1988.

You asked me whether the 'references' to telephone conversations listed E.C. Jordan's references referred to documents which EPA would produce. Our position is that EPA will not include in this response to your request internal staff notes, including telephone memoranda, unless those materials would otherwise be included in EPA's administrative record. There are no notes on telephone conversations in E.C. Jordan's files on the DART that fit this criterion.

Yours Sincerely,

Charles Bering
Assistant Regional Counsel
